European Partnership with Municipalities Programme

Health is the Greatest Wealth

Regular medical checkups in rural areas for around 550 citizens and for those without medical insurance were organized within a project "Have to Be Healthy to Fight for Women Rights" funded by the European Union and the Government of Switzerland through EU PROGRES with 9,331 Euros.

Free general, gynaecological and oncological examinations were provided to 121 women from Lebane, aged 16-75 years. Fifty women had breast examination for the first time in their life.

The project also focussed on women in rural areas with no or weak access to the medical services, where it organised lectures on the need for regular checkups. Many of these checkups prevented serious health damage, as some beneficiaries were diagnosed with diseases such as high blood pressure, diabetes, while ten women and elderly people from rural areas were recommended for further treatment.
